SOFTWARE VIDEO DVD USAGE AGREEMENT

The purpose of this agreement is to protect the rights of the content owners of video DVDs as well as keep LISD compliant with applicable laws. You must have a valid LISD electronic account for this application to be processed.

By signing this form, you are agreeing to check with your campus librarian before publicly displaying (showing to anybody other than yourself) **any** video DVD on your computer, regardless of its origin. This form must be signed by both you and your campus librarian before the Technology Department will install software capable of playing a video DVD on your computer. Please note that copyright law is not exclusively applicable to software DVD players on your computer. You should check with your campus librarian before publicly displaying any copyrighted material.

Not all computers in the district have the capability of playing a video DVD and not all computers with hardware DVD drives are licensed for the software to play a video DVD. You should check with your campus Instructional Technology Specialist to determine if it is possible for your computer to play video DVDs.

Please fill in all requested information with the information on file with LISD Human Resources and LISD Technology and return it to the Technology Department.

LISD Username: _____

LISD Employee ID: _____

First Name: _____

Last Name: _____

Campus: _____

Serial Number of Computer: _____

I agree to abide by the decisions made by LISD and my campus librarian about the legality of publicly displaying video DVDs. I understand that failure to comply with these decisions or failure to check with the librarian regarding use of a video DVD could lead to loss of privilege to use the DVD player and/or disciplinary action.
