

LISD Network Drives

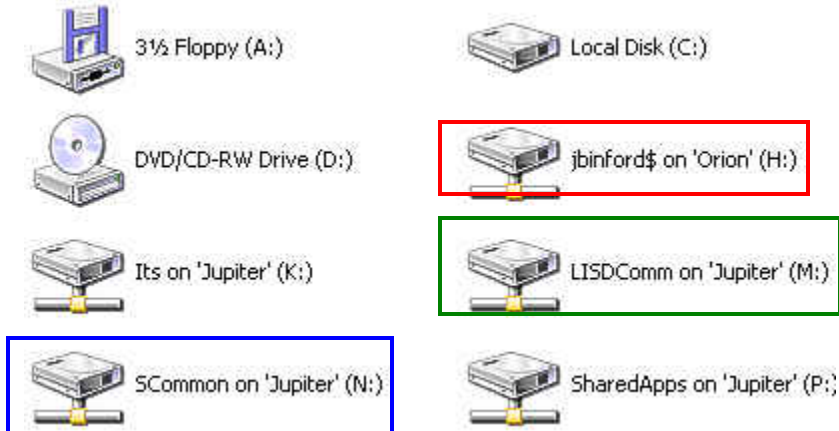

Why log on?

Logging on to the network:

- Allows all appropriate LISD Network Drives to be “seen”.
- Gives you access to campus networked printers.

What are the usual LISD network drives?

To see them you will click on My Computer.

*Red = H Drive:

- All students and employees have an H drive. (**Personal Folder or Home Directory**)
- This is a “private” place to save files. No one else can see what is in this drive unless they know YOUR username & password.

Green = M: Drive:

- **ALL** LISD employees have access to this drive. It is a place to **SHARE** files. Always keep a backup in your H:drive because every employee has the ability to read, write and delete files in LISDComm. Students cannot “see” this drive.

Blue = N: Drive: (Teachers, see your ITS for more information about this drive.)

- Students and LISD employees have access to this drive. It is a place to share files with students.
- **Student Rights:**
 - Students can **READ** files in this drive but **MUST** save in their own H drive.
 - See your ITS about a common place for students to save files so that you, the teacher, can easily check completed technology projects.
- **Employee Rights:**
 - Teachers can use this drive to share curriculum related templates with students.
 - Teachers can **READ, WRITE, and DELETE** files from this drive.
 - See your campus ITS for more information.

Black = Other Misc. Drives: These vary depending on your campus and job description.
